Zeus Ice . ZE/IC

È una posata forgiata la cui manicatura martellata evoca il rito antico della lavorazione manuale dei fabbri che, nelle loro fucine, modellavano il tizzone incandescente a colpi di martello fino ad ottenere, con la loro maestria, dei manufatti unici. Le superfici ondulate e irregolari dell'impugnatura ricordano l'incessante battito dei martelli. Così come le lame dei coltelli dal profilo discontinuo e dalla silhouette inconfondibile. Finitura sabbata.
